Let the sun shine in.

With the right windows, no matter what it's like outside, you will feel comfortable inside. We use our state-of-the-art **EnergyRight** Sash technology with our **180 LoE argon** filled glass coatings for maximum thermal efficiency. Which means you stay cool in summer and warm in winter, all the while inviting only the view through your windows. Of course, with increased efficiency comes increased savings and there's nothing quite like saving a few dollars to make you feel warm all over.

vertex3™

HIGH-PERFORMANCE WINDOW TECHNOLOGY

Discover the advantages of the Orion Windows **vertex3** High-Performance Upgrade.

1. **ēvolv** glass provides superior thermal efficiency.
2. **EC TECH** glass coating provides crystalline glass clarity.
3. **Owens Corning®** offers excellent air infiltration protection.

ēvolv Thermal efficiency

OUTPERFORMS
INDUSTRY STANDARDS
BY

29%

Proprietary **ēvolv** Glass Technology provides triple-pane thermal efficiency in a double-pane window by reflecting escaping UV rays back into the room, increasing thermal efficiency by up to 29% above industry average,* which adds up to substantial energy savings.

*Average measured from Energy Star® data of three other window manufacturers.

**ec
TECH**

Glass clarity

REDUCES
WATER SPOTS
BY

99%

Patented **EC TECH** Technology produces cleaner, clearer windows. The titanium dioxide coating absorbs the sun's UV rays, loosening dirt particles and allowing water to rinse them away naturally. Water spots are reduced by 99%, creating crystalline glass clarity.

Air infiltration protection

CUTS
DRAFTS
BY

14%

Industry-leading **Owens Corning®** Air Sealing Technology offers unmatched air infiltration protection, cutting drafts by up to 14%** with a mould resistant seal and guaranteed for life.

**Based on independent laboratory testing.

Timeless quality.

ENERGY STAR®

Orion Windows meet or exceed Energy Star® most severe standards. For more details on our energy performance data, please visit: www.orionwindows.ca

INTERCEPT® ULTRA WARM-EDGE SPACER SYSTEM

The best combination of durability, rigidity and thermal performance, resulting in longer-lasting and more energy-efficient windows

ēvolv

Double-pane glass with triple-pane performance. Significantly exceeds Energy Star® standards to reduce energy costs.

EC TECH

Patented **EC TECH** Technology reduces water spots by 99%, creating a crystalline glass clarity

PREMIUM RAW MATERIALS

Vinyl colour is formulated throughout to ensure that the lustrous finish will never chip, peel, crack or warp

CONSTANT FORCE BALANCE SYSTEM

For smooth and easy operation (hung windows)

TRUTH™ ENCORE FOLDING HANDLE

Won't interfere with your window covering and requires 33% less effort to operate (casement & awning windows)

FULLY WELDED SASH & FRAME

Fully welded sash and frame for a stronger and more durable window

OWENS CORNING® AIR SEALING TECHNOLOGY

Reduces the risk of air or water infiltration and provides a mould resistant seal

AlumHybrid specialty windows.

The strength & beauty of aluminum combined with the energy efficiency of vinyl.

Our state-of-the-art AlumHybrid window features an exterior frame made of extruded aluminum joined to an interior frame made of rigid PVC. AlumHybrid delivers the strength and beauty of aluminum and the energy efficiency of vinyl. It is simply the best of both worlds without any compromise.

Features

- Extruded aluminum exterior joined to the PVC interior structure.
- Extruded aluminum goes up to the centre of the 4-9/16" frame and tucks into the PVC frame to increase air and water tightness.
- PVC sash surrounds the glass for better air and water tightness.
- Available in Casement, Awning, Fixed Picture Bay & Bow models.

Exterior profiles

Orion provides a range of exterior options and capabilities to make your windows a beautiful feature of your home.
